

Horizon Europe

THE NEXT EU RESEARCH & INNOVATION
INVESTMENT PROGRAMME (2021 – 2027)

Widening regional Excellence

#HorizonEU

Parallel Session 1 - Iasi 27 June 2019

Dr Joao Albuquerque Silva: DG RTD Unit G.1

European Research Area & Country Intelligence

Horizon Europe

The ambitious EU research and innovation framework programme (2021-2027)

to strengthen the EU's scientific and technological bases and the European Research Area (ERA)

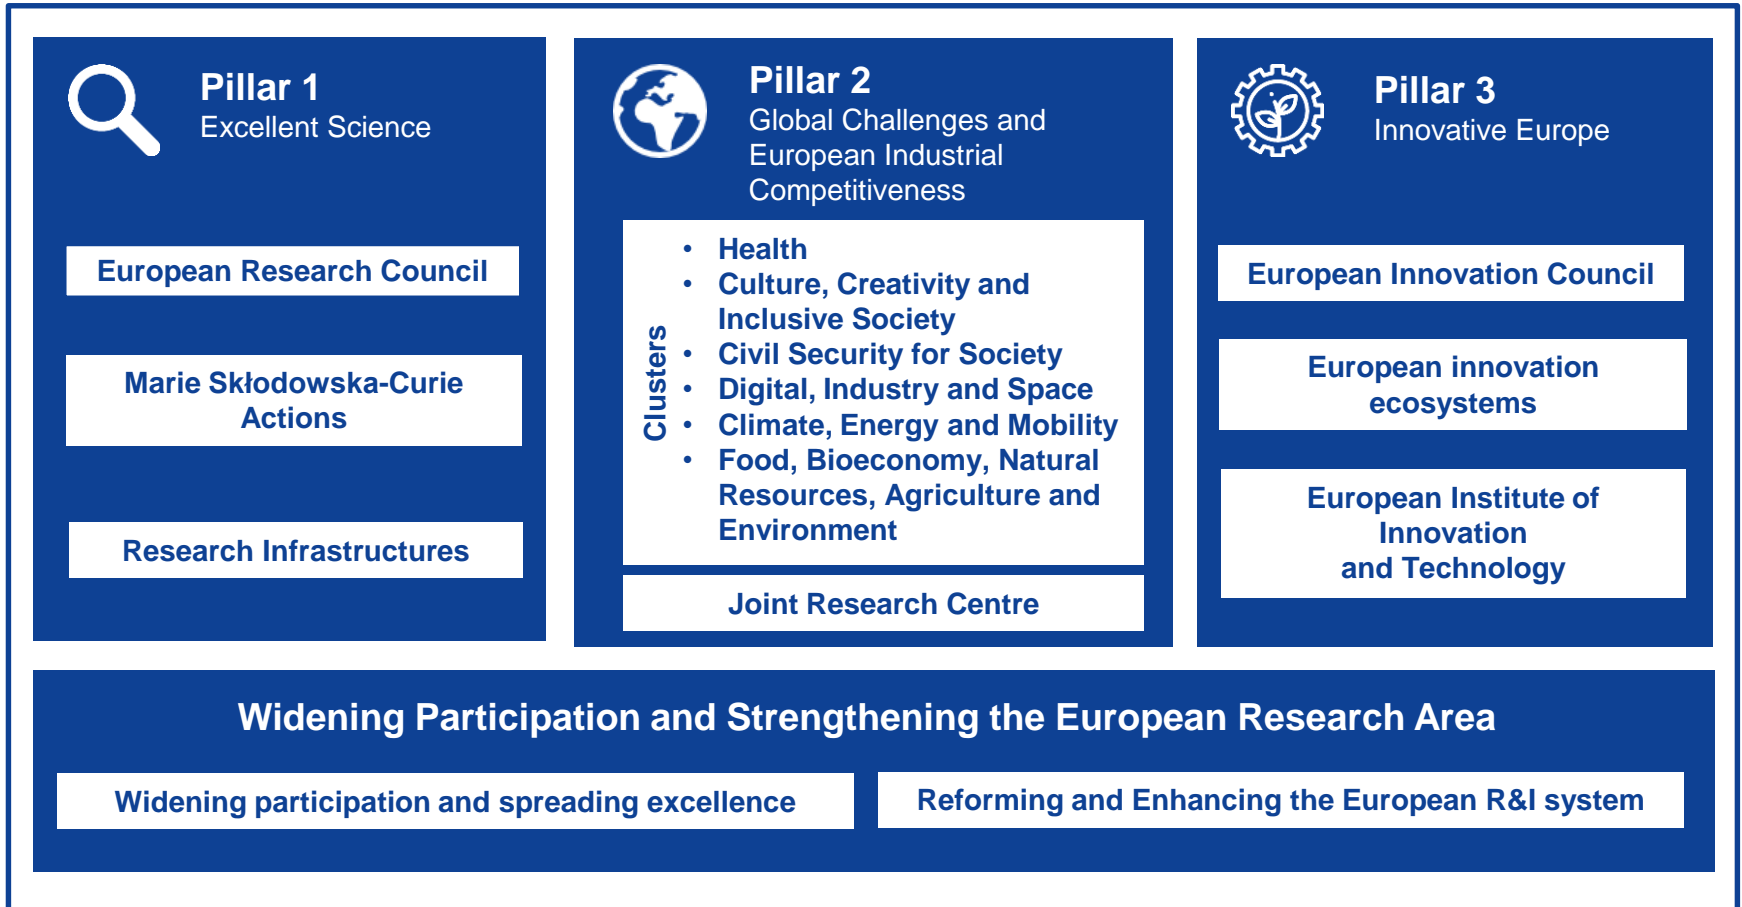

to boost Europe's innovation capacity, competitiveness and jobs

to deliver on citizens' priorities and sustain our socio-economic model and values

Horizon Europe: Preliminary structure

Widening Participation: CORE ACTIONS

Teaming

- Institution building
- Establish/upgrade Centre of Excellence in eligible countries
- Game changer through strong partnership

Twinning

- Institutional networking
- Strengthen a university / research organisation from an eligible country in a defined field
- Link to internationally-leading research inst. from other MS or AC

ERA Chairs

- Bringing excellence to institutions
- Support universities / research organisations attract talents through outstanding researcher and research manager
- Implement structural changes

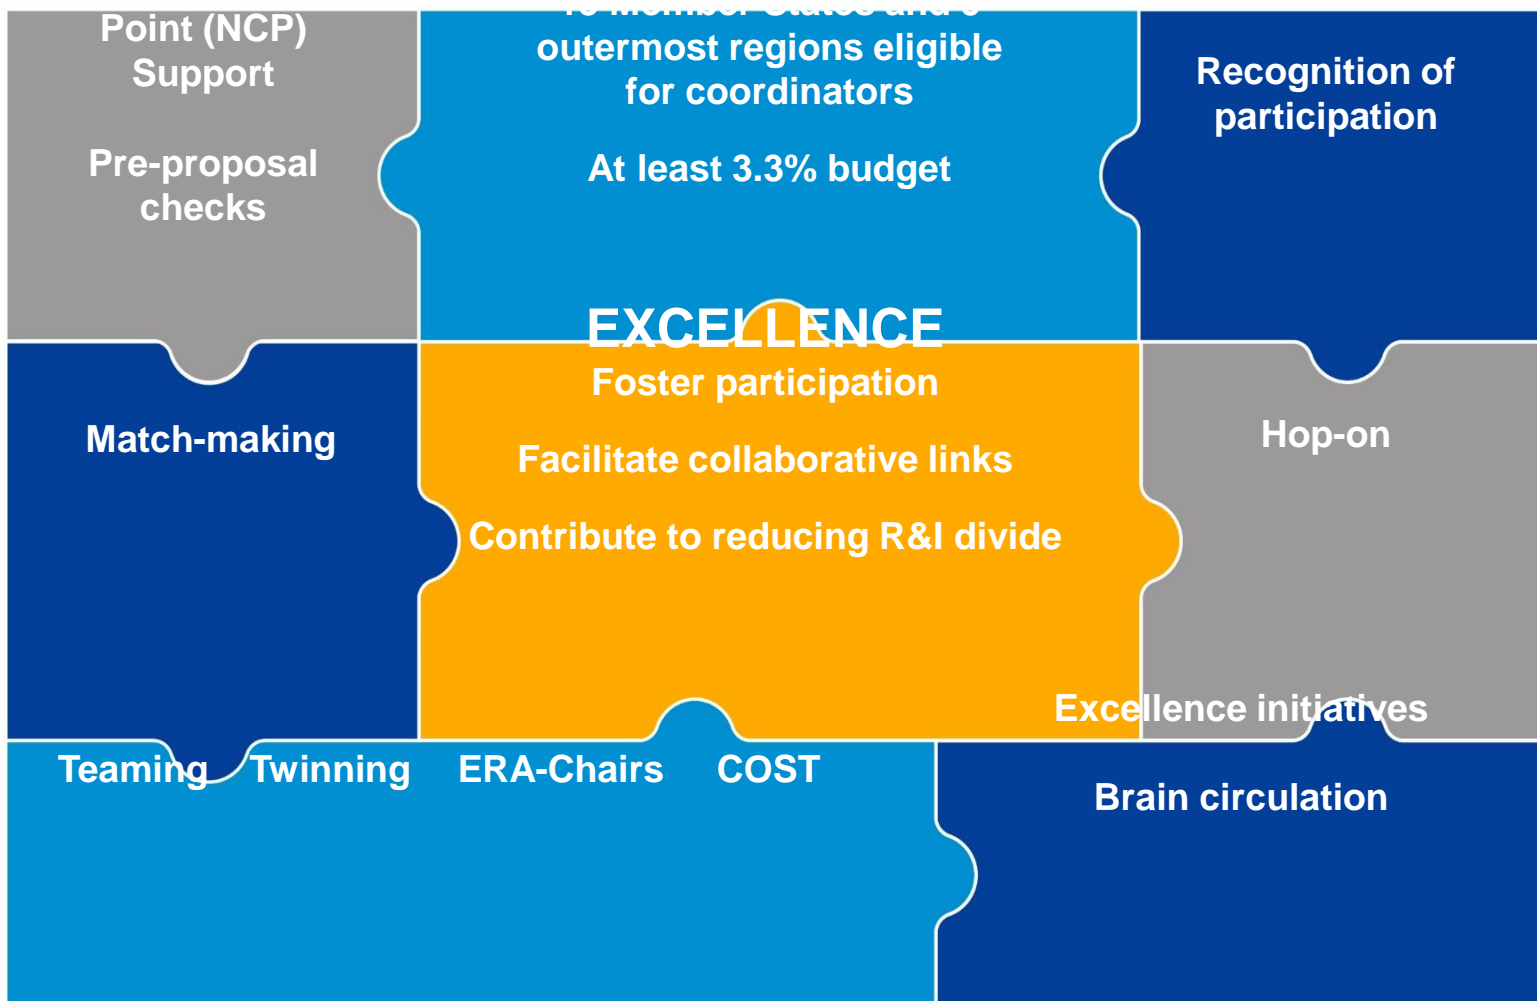

+ COST: European Cooperation in Science and Technology, offering low hurdle access to R&I networking, capacity building and career development support to researchers

European
Commission

Widening participation/spreading excellence

SEWP: Implementation (Key figures*)

2208 proposals were submitted and evaluated in these calls.
Average success rate is 10%

Including Teaming phase 2, out of a total of 437 million euros allocated, 73% of the funding went to partners from low R&I performing countries.

Teaming in particular also leveraged significant amounts of ESIF funding, as proposers were expected to mobilise from national/regional public funds (including ESIF) at least the same amount as the Horizon 2020 requested contribution.

* Including the provisional results of 2018 calls

Communication on H2020 interim evaluation – lessons learnt (1)

➤ Synergies already exist between H2020 and other EU programmes, such as ESIF - still, **they should be further strengthened and made more efficient and effective**

➤ In particular, building on synergies with ESIF and smart specialisation strategies, **R&I capacities built over the past decade in lower performing regions** could be better used for Framework Programme-supported projects and to increase participation in transnational R&I networks and activities

Commission proposal for synergies with other Union programmes

Horizon Europe

Other Union Programmes, including

Common Agricultural Policy
ERDF
External Instrument
Maritime & Fisheries Fund
InvestEU
LIFE
Connecting Europe Facility
ESF+
Digital Europe
Space Programme
Erasmus
Innovation Fund
Internal Security Fund
Single Market Programme

Enhanced synergies

Compatibility

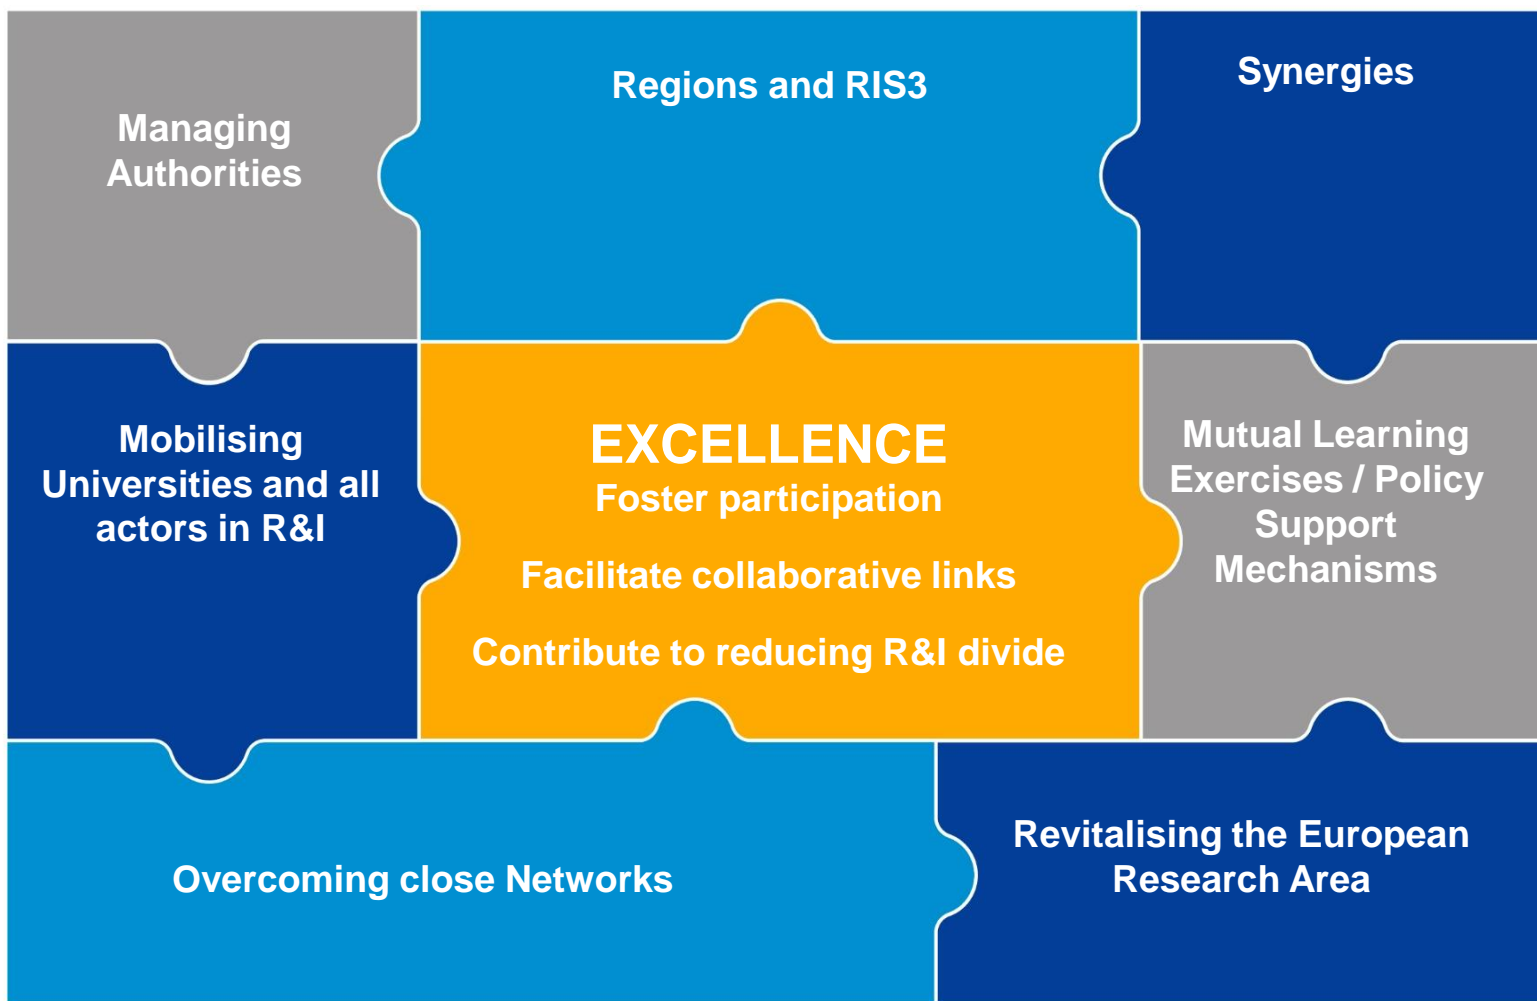

Harmonisation of funding rules; flexible co-funding schemes; pooling resources at EU level

Coherence and complementarity

Alignment of strategic priorities in support of a common vision

Widening participation/spreading excellence

The role of the Legislator:

"To load the dice"!

Thank you!
